

HEALTHCARE SECURITY RISK ASSESSMENT

CMS EMERGENCY PREPAREDNESS

What is the CMS final rule on emergency preparedness?

It is now a new **FEDERAL LAW** that goes into effect in mid-November, 2016.

It requires 17 different kinds of Healthcare Organizations to expand their duties from deciding how to prepared for *tornados, hurricanes, earthquakes, cold weather, active shooter, bomb threats, and any mass casualty event.*

NOT IN COMPLIANCE- Federal Government will not reimburse the healthcare organizations for Medicare and Medicaid expenses unless they comply conducting complicated all-Hazard Healthcare Security Risk Assessments and training every year, starting in November 2016.

Healthcare Organizations

1. Hospitals
2. Religious Nonmedical Health Care Institutions (RNHCIs)
3. Ambulatory Surgical Centers (ASCs)
4. Hospices
5. Psychiatric Residential Treatment Facilities (PRTFs)
6. All-Inclusive Care for the Elderly (PACE)
7. Transplant Centers
8. Long-Term Care (LTC) Facilities
9. Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID)
10. Home Health Agencies
11. Comprehensive Outpatient Rehabilitation Facilities (CORFS)
12. Critical Access Hospitals (CAHs)
13. Clinics, Rehabilitation Agencies, Public Health Agencies
14. Community Mental Health Centers (CMHCs)
15. Organ Procurement Organization (OPOs)
16. Rural Health Clinics (RHCs) FED, Qualified Health Centers (FQHCs)
17. End-Stage Renal Disease (ESRD) Facilities

The new CMS Rule requires healthcare providers to do **Annual, All-Hazards Security Risk Assessments and have Annual Training**, including not just regular disasters, but Emergency Preparations for all types of mass casualty events, like active shooters, lone wolf attacks and violence against staff members.

The **CMS Final Rule** was stalled in Committee for 3 years, since December 2013. It took the Orlando mass casualty shootings to get it back on track.

We'll walk you through every step of how to prepare for the **CMS Hospital & Healthcare Facility Security Risk Assessment**, including: How to gather the data, detailed threat data & required controls that CMS will be looking for in the Healthcare Security Risk Threat Assessment, Emergency Plans and how to conduct low cost, high impact Tabletop Exercises to meet the New Rule.
